

Tests Screenshots

Navigation Tests:

Youssef Mabrouk

ViewModel Test:

The screenshot shows an IDE with the following components:

- Project Explorer:** Shows the project structure with folders for manifests, kotlin+java, and com.youssefmabrouk.heritagequest. The data folder contains QuizModels.kt, and the ui folder contains MainActivity.
- Code Editor:** Displays the QuizViewModelTest.kt file. The code is as follows:

```
1 package com.youssefmabrouk.heritagequest
2
3 import ...
4
5 @OptIn(markerClass = ExperimentalCoroutinesApi::class)
6 class QuizViewModelTest {
7     1 Usage
8     private val testDispatcher = StandardTestDispatcher()
9
10    @Before
11    fun setUp() {
12        Dispatchers.setMain(testDispatcher)
13    }
14 }
```
- Run Panel:** Shows the test results for QuizViewModelTest. The status is "2 tests passed 2 tests total, 98 ms". The output shows the tasks executed during the test run:

```
Executing tasks: [:app:testDebugUnitTest, --tests, com.youssefmabrouk.heritagequest.QuizViewModelTest] in project C:\Users\YVM\0
> Task :app:checkKotlinGradlePluginConfigurationErrors
> Task :app:preBuild UP-TO-DATE
> Task :app:preDebugBuild UP-TO-DATE
> Task :app:checkDebugAarMetadata UP-TO-DATE
> Task :app:generateDebugResValues UP-TO-DATE
> Task :app:mapDebugSourceSetPaths UP-TO-DATE
> Task :app:generateDebugResources UP-TO-DATE
> Task :app:mergeDebugResources UP-TO-DATE
> Task :app:packageDebugResources UP-TO-DATE
> Task :app:parseDebugLocalResources UP-TO-DATE
> Task :app:createDebugCompatibleScreenManifests UP-TO-DATE
```

This is a close-up view of the Run panel from the previous screenshot. It shows the "Test Results" tab with a green checkmark and the text "98 ms". To the right, it says "2 tests passed 2 tests total, 98 ms". The output text is partially visible, showing the same task list as the full screenshot.

Unit Tests:

The screenshot shows an IDE with the following components:

- Project Explorer (Left):** Displays the project structure with folders like `app`, `manifests`, `kotlin+java`, `com.youssefmabrouk.heritagequest`, `data`, `ui`, `viewModel`, and `MainActivity`.
- Code Editor (Center):** Shows the `UnitTest.kt` file with the following code:

```
1 package com.youssefmabrouk.heritagequest
2
3 > import ...
9
10 class UnitTest {
11     4 Usages
12     private val repository = HeritageRepository()
13
14     @Test
15     fun onlyTwoCategoriesPlayable() {
16         assertEquals( expected = 6, actual = repository.categories.size)
```
- Run Panel (Bottom):** Shows the execution results for the `UnitTest` task. The status is "3 tests passed 3 tests total, 38 ms". The output includes the following tasks:

```
Executing tasks: [:app:testDebugUnitTest, --tests, com.youssefmabrouk.heritagequest.UnitTest] in project C:\Users\VM\Documents
> Task :app:checkKotlinGradlePluginConfigurationErrors
> Task :app:preBuild UP-TO-DATE
> Task :app:preDebugBuild UP-TO-DATE
> Task :app:checkDebugAarMetadata UP-TO-DATE
> Task :app:generateDebugResValues UP-TO-DATE
> Task :app:mapDebugSourceSetPaths UP-TO-DATE
> Task :app:generateDebugResources UP-TO-DATE
> Task :app:mergeDebugResources UP-TO-DATE
> Task :app:packageDebugResources UP-TO-DATE
> Task :app:parseDebugLocalResources UP-TO-DATE
> Task :app:createDebugCompatibleScreenManifests UP-TO-DATE
```

This screenshot is a second instance of the IDE showing the same unit test and its execution results. The components are identical to the first screenshot, including the project structure, the `UnitTest.kt` code, and the run panel output showing 3 tests passed in 38 ms.
